

## Latest Press Release

### **Aerco to supply connector tools from Daniels**

Now appointed by Glenair UK as a sub-distributor for the range of electrical connector tooling from Daniels Manufacturing Corp (DMC), we can provide quick turn around for tooling to support all popular connectors including major mil-spec series. We will provide full technical support and assist customers by identifying the correct tooling they require simply from the connector or contact part number. We make no charge for issuing a Certificate of Conformity.

### **New lights and push-buttons for modern panel applications**

Now in stock is the P9 range of panel-mounted push-buttons and indicating lights from GE designed to provide longer life, better illumination and more colour options for all types of control panels. Available in six different colours with a wide range of base and panel mountings, the P9 indicators are extremely durable, have very high resistance to vibration and shock, have a life cycle of 100,000 hours, require little maintenance and have extremely low energy consumption.
