

Welcome

To demonstrate our ongoing commitment to developing the business relationship with our suppliers, we are using this issue of E-News to highlight two new distributor appointments.

We are delighted to be appointed UK distributor for Dialight, and our continually expanding product portfolio now benefits from a relationship with world-leading wire and cable manufacturer Habia Cable, as well as the Deutsch Wildcat series and the Cherry GP and E ranges.

For our complete product range, please visit our website www.aerco.co.uk. To request our Line card or for your enquiries please email sales@aerco.co.uk.

Aerco: Newly appointed UK distributor for Habia Cable

We are delighted to announce our appointment as a UK franchised distributor for Habia Cable.

"This partnership will increase the already high service levels offered in the UK by both companies. Aerco will offer next-day delivery from our extensive stock portfolio and provide customers technical expertise and support on high performance wire and cable." Announced Marc Pawson, Habia's UK Sales Manager.

Wildcat - high density and performance

Now available from Aerco is the Deutsch Wildcat series, a new range of high quality circular connectors that combine the performance levels of D38999 connectors with the compact size of the Deutsch MMC range.

Deutsch Wildcat connectors set new standards in terms of pin density and size. The Wildcat series comprises of the Micro range and the Series 3, all available in a wide range of finishes. The Wildcat Micro has three, five or nine contacts and is available in threaded and bayonet versions. Giving excellent shell to shell continuity for high EMC performance, it also has a clicker mechanism that offers a distinct advantage over competitive products.

LED obstruction beacon with 24 mile range

We have been appointed as the UK distributor for Dialight, the LED lighting specialist. The Dialight LED Obstruction Light Beacons, designed for use on tall buildings, towers, chimneys and other structures requiring medium or low intensity obstruction lights, are now available from stock.

Advances in LED technology and improved design of the beacon's lens and reflector mean that it now provides high visibility over 24 miles, with a power consumption of only 48 watts. Weighing 14kg, the D264 is also considerably smaller and lighter than other similar power lights.

Long life, heavy-duty snap switches

We now supply the Cherry GP and E ranges of precision, long life, snap action switches that are ideal for pressure switches, commercial hand dryers, garage door sensors, fork lift truck motor stops, lift controllers, X-ray equipment and a wide range of other industrial machinery.

The heavy-duty GP switches are rated to 20A and have a mechanical life of one million actuations. The E series switches are available in single and double-pole configurations, with five current ratings from 0.1 to 30.1A. Rubber boots are also available for the GP series, providing protection to IP65.
