

Latest Press Release

DESIGNSUPPORT team strengthened

Our DESIGNSUPPORT team is strengthened with the appointment of Steven Latto. Steven brings a wealth of experience to the team having spent nine years in the RAF, where he was responsible for the installation and recovery of ground based communication electronics and information systems. He has also worked as an installation engineer responsible for the design, integration, installation, commissioning, maintenance of ATC systems and navigational aids. We all wish him well.

Aerco in tow with AB Connectors

Aerco now stocks the popular range of heavy-duty trailer connectors manufactured by AB Connectors that is the standard electrical coupling between military and utility vehicles and towed trailers and artillery equipment. The connector has a push-pull coupling and comprises 12 contacts that connect to and provide power to all trailer circuits. Designed to withstand heavy shock and vibration, the connectors have an operating temperature of -55 to +100°C.

Alpha Wire Mil-spec cable in stock

We now stock an extensive range of Mil-spec, high-performance cable from Alpha Wire that meets the demands of a wide range of modern, military systems. Products include Supra-Shield, Xtra-Guard and a high temperature cable known as ManhattanT. Also available are FIT Mil-spec heat shrink tubing, which uses PVC for 30% more strength than standard tubing made from polyolefin, and Mil-spec hook-up wire that withstands wear and abrasion and is highly resistant to oil, solvents and chemicals.

New ADDA fan has high performance

The ADDA AS6038 is a high performance, DC axial fan built in the 60 x 60 x 38mm frame size that operates over a voltage range of 5 to 13.2 VDC and delivers airflow of 41.83 litre/sec. With a frame of UL:94V-0 plastic and a high quality dual ball bearing system, life expectancy is 70,000 hours at 70°C and the operating temperature range is -10°C to +70°C. This new fan is ideal for hot-spot cooling, medical and desk top instrumentation, all types of office equipment and similar systems.
