

## Latest Press Release

### New franchise agreement with Harwin

Aerco has signed a franchise distribution agreement with Harwin, the leading connector and SMT board hardware manufacturer. We see this as an important addition to our product portfolio and look forward to working with Harwin in the UK electronics market. Harwin products, such as the Datamate 2mm pitch hi-reliability connector family, will be complementary to our existing range of high quality connector products.

### We're on track with new LED light fixture

The Marl 714 series is a high brightness LED light fixture with a tamper-proof mounting that is developed specifically for the rail industry. Easy to install, it has a low bezel temperature, a highly aesthetic design and, because of LED technology, will provide many years of maintenance-free operation with low-power consumption. It is ideal for ceilings, internal floors, stairways and steps.

### ABCIRP connectors in stock at Aerco

Aerco now supplies on a quick turnaround with no MOQs, the ABCIRP range of rail industry connectors from AB Connectors that is designed specifically for the demanding environments of railway and mass transportation. ABCIRP connectors are approved to the French rail specification N.F.F. 61030, so they can be used by sub-contractors on any train operated by SNCF, the French Mass-Transit Authority.

### EcoWire is safer, thinner and lighter than PVC products

Aerco now supplies EcoWireT equipment wire that uses Noryl insulation to provide an environmentally friendly alternative to PVC while reducing size and weight. EcoWire is a UL AWM wire from AlphaWire that is thinner, lighter, tougher and more flame resistant than wire using PVC. It also contains no halogens, phthalates or heavy metals thus allowing customers to meet RoHS and WEEE directives.
