A more sustainable future

TOUGH AND DURABLE

- Weather resistant
- UV resistant
- Protection against harsh and demanding environments

ENERGY EFFICIENT

- Less energy intensive manufacturing than steel and lighter to transport
- Fully recyclable at the end of life

SAFER

- Halogen free
- IP classification against water ingress
- IK rating against mechanical impacts
- Flammability rating to UL94-5A

LONG TERM VALUE

- Broad range available to suit most applications
- Fully customisable
- Longer lasting and durable requiring less maintenance and longer intervals between replacements
